

XKP

CONTROL KEYPADS

FAAC
Simply automatic.

XKP W

Technology, design, security.

SMALL DEVICES, OUTSTANDING TECHNOLOGY

Innovation and design come together in the **XKP W 433**, **XKP W 868** and **XKP B** control keypads. Up to 255 user codes for automatic doors.

FUNCTIONAL DESIGN

The keyboards are activated when an alphanumeric combination is entered and it is possible to select one of two operating modes.

- **EASY:** each user code is associated with only one command.
- **ADVANCED:** each user code activates one, several, or all available commands.

REMARKABLE RESISTANCE

All models are made from high quality materials: **painted aluminium base, stainless steel keyboard cover and surface** with blue LED backlighting.

The robust keypads can be used even in the most adverse weather conditions: they are resistant to rain, snow and humidity and can be used without having to take off your gloves.

EASY CONNECTION WITH BUS 2EASY

The XKP B model is equipped with BUS 2easy technology that uses two non-polarised wires. It connects to:

- **control boards equipped with BUS 2easy**, in 1 command or 2 command mode
- **BUS XBR2 and XBR4 interfaces**, to control boards that are not equipped with a bus or for other uses, with 2 or 4 available commands

Guaranteed security: even if tampered with, the short-circuiting of the cable does not transmit the command.

BUS 2easy is natively monitored.

WIRELESS: PATENTED TECHNOLOGY

The wireless battery powered XKP W 433 and XKP W 868 models do not require wiring and can transmit up to 4 different commands.

The patented **SLH FAAC** technology, which is compatible with all the corresponding receivers and transmitters, changes the code each time the keypad is used in order to guarantee maximum security.

XKP B

Technical specifications

Model	XKP B INOX
Power supply	BUS 2easy with 2 non-polarised wires 24V DC
Type of installation	wall or column mounted
Max. number of user codes	255
Max. number of commands	2 (up to 4 with the XBR4 adapter)
Protection rating	IP54
Dimensions (LxDxH)	72 x 21 x 100 mm
Operating temperature	-20°C to +55°C

Technical specifications

Model	XKP W 433 INOX	XKP W 868 INOX
Power supply	Battery operated (2 x CR2450 3W)	
Battery life	2 years	
Type of installation	wall or column mounted	
Max. number of user codes	255	
Transmission frequency	433.92 MHz	868.35 MHz
Radio signal decoding	SLH: encrypted self-learning rolling code	
Max. number of commands	4	
Protection rating	IP54	
Dimensions (LxDxH)	72 x 21 x 100 mm	
Operating temperature	-20°C to +55°C
